

## School Report Card Information

Did you know that a school report card about the Loon Lake School District can be found online? The Office of Superintendent of Public Instruction (OSPI) maintains a school report card for each district and school in our state, and below is how you can check it out.

To access our report card:

- Go to [www.k12.wa.us](http://www.k12.wa.us)
- Hover your mouse over the *Data & Reporting* button near the top right of the page, then click on *Report Card*.
- Scroll down to the *I want to see data for a school or school district* section.
- Type in Loon Lake School District to see data that includes both our elementary and our Home-Link program, or type in Loon Lake Elementary to just see data for the elementary.
- This will lead you to a screen that contains a variety of data and options about or school(s).

On OSPI's website, you can also view NAEP (National Assessment of Educational Progress) Information. This data is not specific to the Loon Lake School District, but rather speaks to Washington State's student achievement in comparison to the nation. To find it, go to [www.k12.wa.us](http://www.k12.wa.us) and hover your mouse over the *Student Success* tab, then click on *Testing*. Then click on the link that says *National Assessment of Educational Progress (NAEP)*.

Questions? Please contact Brad Van Dyne at 233-2212 or stop in the office.

Thanks!
